

Warm Greetings from Gan Konsulindo,

Gan Konsulindo is excited to host **MediLink 2024: Indonesia-Korea Healthcare Business Opportunities Forum**, a side event of the World Health City Forum 2024. In this forum, we will explore the recent **Omnibus Laws on Healthcare in Indonesia**, discussing their implications and uncovering the potential business opportunities that arise from these developments.

As the global healthcare and beauty sectors continue to thrive, Indonesia's large and rapidly growing market remains an attractive choice for foreign investment – especially for Korean companies known for their cutting-edge medical technologies and aesthetics solutions.

This forum provides a remarkable opportunity to connect with prominent Indonesian leaders and engage in meaningful discussions that could lead to impactful collaborations. We are proud to introduce two of Indonesia's leading companies, **Pyridam Farma** and **Sinarماس Land**, both renowned for their exceptional industry achievements and deep understanding of the local markets to help you navigate the Indonesian landscape effectively.

Participating Companies:

1. **Pyridam Farma:** A leading Indonesian pharmaceuticals and medical device company, specializing in drug manufacturing and medical technologies.
2. **Sinarماس Land:** A major player in Indonesia's business landscape, including investments in healthcare-related real estate and infrastructure. Sinarماس Land is currently developing a special economic zone for health in BSD City, creating opportunities for international health providers and businesses to collaborate and expand into Indonesia.

We warmly invite you to join us at **MediLink2024**, taking place at **Songdo Convensia, Premier A, 2nd Floor, on 12 November 2024, from 10:00 AM – 1:00 PM**. Your insights and expertise will be invaluable to our discussions and the success of the event.

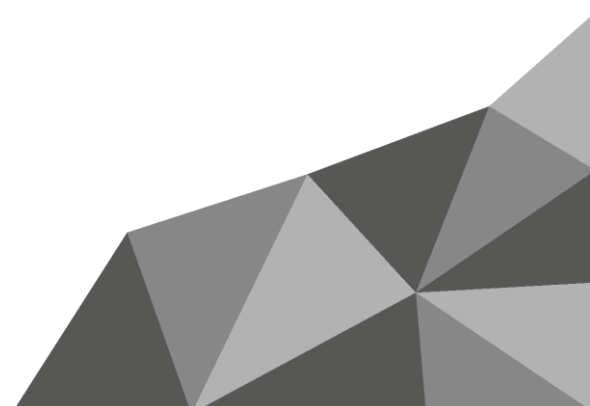

If you have any queries or want to confirm your attendance, please contact **Alland Dharmawan** at +82 10-7913-3691.

Best Regards,
